E. L. Osika, Jr.
Vice President
United Park City Mines
309 Kearns Building
Salt Lake City, Utah 84101

Dear Mr. Osika:

Enclosed is a copy of the "Analytical Results Report of Air Sampling at Richardson Flat, Park City, Utah." This report summarizes the results of the air sampling conducted by EPA and its contractors Ecology and Environment during the summer of 1986. The results indicated a release of hazardous constituents via the air pathway from the site. Appendix IV of the report includes an updated site investigation form. A copy of the Analytical Results Report on the surface water and groundwater investigation conducted in the summer of 1985 has previously been sent to United Park City Mines.

If you have any questions regarding the contents of this report, please contact me at 303-293-1518.

Sincerely,

Paula M. Schmittziel
Remedial Project Manager
